

CMT (4th Gen.) Objective 25 – Grade 4: Solve extended numerical and statistical problems.

On Monday, Joe asked his mother if he could go with his friends to the movies on Friday. His mother gave him a list of chores and said he would have to earn the \$5 to buy the movie ticket.

- Babysitting his sister: 1 quarter an hour
- Dusting: 1 nickel
- Making his bed: 2 quarters
- Washing dishes: 1 quarter
- Cleaning his room: 1 quarter
- Taking out the trash: 1 quarter
- Sweeping the floor: 1 dime
- Folding clothes: 1 dime

Make a plan for Joe to earn \$5. List the chores he will need to do each day. Explain in words or show how you found your answer and why you did the plan the way you did.
